7-Cup Blue Electric Water Kettle

Large, 7-cup/1.7-liter capacity
Lightening fast - water boils at cup-a-minute speed
Cordless, 360°; pouring for easy serving
Easy-to-use one-touch operation
Automatically switches off once water comes a boil

7-Cup Black Electric Water Kettle

The fastest, safest way to boil! The Aroma 7-Cup Electric Kettle will bring water to a roiling boil in just a matter of minutes. And, unlike stovetop kettles, it automatically shuts off once water has boiled. The kettle lifts off its power base for convenient, cord-free pouring. It's the perfect way to make hot tea, soup, instant coffee, oatmeal, hot chocolate, noodles or baby formula! The bold black stainless steel finish looks great whether serving or simply sitting on the counter.
